

Headsets for MERLIN® Telephones

Avaya offers ergonomically designed communication headsets and amplifiers for the MERLIN® family of telephones. This full line of professional and contact center solutions sets the standard in sound quality and durability. Avaya headsets are designed for maximum, all-day comfort and are available in styles that suit nearly any wearer—and any usage pattern.

Whether you want the freedom to communicate hands-free while working at your desk, or the ability to roam while talking, you will find a solution that suits your individual needs.

Choosing a headset is as easy as 1, 2, 3.

1. Identify the MERLIN telephone you are using.
2. Choose an amplifier based on compatibility and features.
3. Choose the style of headset that best suits your needs. (For instance noise-canceling headsets are great in a busy office or when using VoIP telephones.)

Research shows that headsets help reduce neck, upper back and shoulder tension, and also help increase productivity*. So regardless of the headset you choose, you will notice a big difference!
